

An Internship Opportunity with

Southern Oregon Climate Action Now

Confronting Climate Change

“Climate Projections in Oregon’s Congressional Districts”

In collaboration with Interns at SOU, Southern Oregon Climate Action Now has developed a series of 12 to 16-page summaries of climate change trends, projections, and consequences for each of Oregon’s Senate Districts, and thereby each of the state House districts (30 Senate /60 House). These are available at <http://socan.eco/oregon-legislative-districts/>. The next phase of the project is to use the State Senate summaries to produce a Congressional District Summary for each of Oregon’s five Congressional Districts. Congressional District 2 has already been done (available as a model at the above site), leaving four to complete.

The Intern will work with the Project Supervisor to develop the summaries. A stipend is available to support this activity.

Information Contact:

Project Supervisor Dr. Alan Journet, Co-Facilitator, Southern Oregon Climate Action Now: alanjournet@gmail.com; 541-301 4107. Visit <http://socan.eco>
